

VINYL WRAP PRICING & SERVICE GUIDE

Professional Color Change • Partial Wraps • Custom Accents • Removal

Splash & Dash Auto Detail Center
St. Thomas, U.S. Virgin Islands

QUALITY-FIRST WRAPPING

Vinyl material is **included in the final quoted price**. We encourage customers to choose premium, reputable films for better finishes, easier installation, stronger long-term appearance, and more consistent results.

All prices are starting prices and are subject to vehicle inspection, panel condition, film selection, installation complexity, and material requirements.

1. PARTIAL WRAPS

Perfect for changing the appearance of specific areas without completing a full color change.

Service	Starting Price
Roof	\$450
Hood	\$400
Trunk / Liftgate	\$400
Spoiler	\$250
Mirror Caps — Pair	\$300
2 Doors	\$600
4 Doors	\$950
Fenders — Pair	\$550
Quarter Panels — Pair	\$650
Front Bumper	\$550
Rear Bumper	\$550
Front + Rear Bumpers	\$950
A/B/C Pillars	\$200
Window Trim / Chrome Delete	\$400–\$600

BUILD YOUR WRAP

Mix and match panels to create a custom package. Final combination pricing may be adjusted when selected panels overlap with an existing package.

Package	Includes	Starting Price
Roof Package	Roof + Mirrors	\$650
Sport Package	Roof + Hood	\$750
Blackout Package	Roof + Mirrors + Window Trim	\$950
Aggressive Package	Roof + Hood + Mirrors + Spoiler	\$1,050
Triple Package	Roof + Hood + Trunk	\$1,100
Full Front Package	Hood + Front Bumper + Fenders	\$1,200
Front-End Plus	Hood + Bumper + Fenders + Mirrors	\$1,400
Exterior Accent	Roof + Hood + Mirrors + Spoiler + Trunk	\$1,400

CUSTOM COMBINATIONS

Not seeing the exact combination you want? Tell us which panels you want wrapped and we'll build a package around your vehicle. We can also create two-tone layouts, racing stripes, accent sections, logos, lettering, and custom designs.

2. FULL COLOR-CHANGE WRAPS

Full exterior color changes are quoted by vehicle size and complexity. Door jambs, extensive trim removal, and specialty designs are additional unless specifically included in the written quote.

Vehicle Type	Starting Price
2-Door Coupe	\$2,200
Small Sedan	\$2,400
Large Sedan	\$2,600
Small SUV / Crossover	\$2,600
Mid-Size SUV	\$2,800
Large SUV	\$3,100
Small Pickup	\$2,800
Mid-Size Pickup	\$3,000
Full-Size Pickup	\$3,300
Large Truck / SUV	\$3,500+
Van	\$3,500–\$4,500+

TRUCK & SUV CONSIDERATIONS

- Pickup beds, tailgates, bed rails, roof rails, large bumpers, textured plastics, and complex body lines can increase installation time.
- Large SUVs and vans require more material and generally more labor than similarly priced sedans.
- Off-road accessories, aftermarket bumpers, racks, fender flares, steps, emblems, and other accessories may require additional removal/reinstallation labor.
- Extensive disassembly is quoted separately after inspection.

SPECIALTY & CUSTOM WORK

Service	Starting / Additional Price
Door Jambs	+\$300–\$600
Custom Graphics / Design	+\$100–\$500+
Two-Tone Design	Quote individually
Racing Stripes / Accent Stripes	Quote individually
Logos / Lettering	Quote individually
Deep / Recessed Areas	+\$100–\$300
Heavy Trim Removal	+\$100–\$300
Body Repair / Paint Correction	Quote separately

3. VINYL FILM OPTIONS

VINYL IS INCLUDED IN YOUR FINAL TOTAL. Customers do not need to purchase the wrap film separately. The quoted price includes the material selected for the project, based on the final scope and film category.

Brand / Film Family	Why Customers Choose It
3M™ Wrap Film	Premium professional option with a broad range of colors and finishes.
Avery Dennison®	Premium professional option known for installer-friendly conformability and finish choices.
KPMF®	Premium specialty option with strong matte, satin, metallic, and color-shift selections.
ORAFOL / ORACAL®	Professional-grade option with broad color and finish availability.
Arlon®	Professional cast-film option with a variety of colors and finishes.
HEXIS®	Professional film manufacturer with cast color-change and specialty options.
Other Reputable Cast Films	Available by request and quoted according to the specific film and material cost.

OUR RECOMMENDATION

We strongly encourage customers to choose a premium cast film from a reputable manufacturer when long-term appearance is the priority. Film quality can affect conformability, finish, shrinkage, adhesive behavior, durability, maintenance, and removal characteristics.

MATERIAL / FINISH ADJUSTMENTS

Film / Finish	Additional Charge
Premium 3M / Avery	+\$200–\$400
Metallic	+\$200–\$400
Satin	+\$200–\$400
Matte	+\$200–\$400
Color-Shift	+\$400–\$700
Specialty Film	Quote individually

Important: Film upgrades are part of the final quoted total. We will identify the selected film/finish on the customer's quote.

4. WHAT'S INCLUDED — PRE-WRAP PREPARATION

Proper surface preparation is critical for adhesion, finish quality, and installation consistency. Every wrap receives an exterior wash and appropriate decontamination before installation.

1. Vehicle inspection

Check paint, previous repairs, peeling clear coat, chips, dents, contamination, trim, badges and potential installation risks.

2. Initial rinse

Remove loose dirt, sand, salt and road debris before contact washing.

3. Foam / pre-soak

Loosen traffic film and heavier surface contamination with a vehicle-safe pre-wash.

4. Hand wash

Carefully wash exterior panels with proper wash media and vehicle-safe shampoo.

5. Wheels & tires

Clean wheels, tires and accessible wheel-well areas to prevent contamination transfer.

6. Chemical decontamination

Treat bonded contamination that normal washing cannot remove.

7. Iron / fallout removal

Use iron remover when ferrous particles are present.

8. Tar / adhesive treatment

Remove localized tar, road film and old adhesive as needed.

9. Clay decontamination

Use a clay bar or clay mitt when needed to remove remaining bonded contaminants.

10. Final rinse

Thoroughly rinse all cleaning and decontamination products.

11. Drying

Dry panels, seams, trim, handles, emblems and edges to eliminate trapped moisture.

12. Final panel prep

Use the appropriate final prep wipe so installation begins on a clean, dry, residue-free surface.

ADDITIONAL PREP

Severe sap, overspray, heavy tar, neglected surfaces, excessive adhesive, paint correction needs, or contamination requiring unusual labor may be quoted separately before installation.

5. WRAP REMOVAL & VEHICLE CONDITION

Service	Price
Existing Wrap Removal	\$50/hr
Difficult Adhesive Removal	\$60/hr
Heavy Trim Removal	+\$100–\$300
Door Jambs	+\$300–\$600
Deep / Recessed Areas	+\$100–\$300
Minimum Wrap Charge	\$250

IMPORTANT REMOVAL DISCLAIMERS

Removal is not guaranteed to be paint-safe.

Vinyl removal can expose or pull up weak, failing, poorly bonded, repainted, or previously damaged paint and clear coat. Splash & Dash cannot guarantee paint will remain intact during removal.

Factory vs. repainted panels.

Repaired or repainted panels may have different adhesion characteristics from factory paint. Aftermarket paint, body filler, poorly cured paint, or weak clear coat can increase risk.

Age and exposure.

Long-term sun exposure, heat, weathering, and aged vinyl/adhesive can make removal more difficult and increase residue or paint-damage risk.

Existing damage.

Chips, scratches, rust, peeling clear coat, oxidation, dents, or damaged trim may become more visible or may worsen during removal.

Adhesive residue.

Additional adhesive removal may be billed when residue exceeds normal removal time.

Trim/accessories.

Emblems, moldings, handles, lights, badges, spoilers, racks, and other components may need removal for quality work; additional labor may apply.

Customer authorization.

Approval of installation or removal acknowledges these risks and authorizes Splash & Dash to proceed with reasonable professional care.

VEHICLE ACCEPTANCE

- Final pricing is confirmed after an in-person inspection or review of clear vehicle photos.
- Vehicles with failing paint, severe oxidation, rust, peeling clear coat, loose trim, or major body damage may be declined or require additional preparation.
- Bodywork, paint repair, rust repair, and paint correction are not included unless specifically quoted.
- Customer should remove personal belongings and disclose known paint repairs or previous wrap installations before service.

6. AFTERCARE & LONG-TERM RESULTS

A professional installation is only part of keeping a wrap looking its best. Proper care helps preserve the film's finish and appearance.

First days after installation

Follow the film manufacturer's post-installation guidance and avoid aggressive washing until the adhesive has had appropriate time to stabilize.

Washing

Use gentle hand-washing methods and clean microfiber/wash media. Avoid aggressive brushes and automatic systems that can catch film edges.

Pressure washing

Do not aim high-pressure water directly at exposed edges, seams, corners, or lifted areas.

Chemicals

Avoid harsh solvents, abrasive compounds, aggressive degreasers, and products not recommended for the selected film.

Sun & storage

When possible, park in shade or covered areas to reduce prolonged UV and heat exposure.

Contamination

Remove bird droppings, tree sap, road salt, and other contaminants promptly rather than allowing them to remain on the film.

Edges

If an edge begins lifting, stop washing the affected area and contact Splash & Dash for an inspection.

WARRANTY / MATERIAL EXPECTATIONS

Any manufacturer's film warranty is subject to the specific film brand, product, installation requirements, climate, maintenance, and manufacturer's warranty terms. Splash & Dash does not represent that every film carries the same warranty or service life. Installation quality and vehicle care can materially affect longevity.

FINISH & COLOR EXPECTATIONS

Gloss, satin, matte, metallic, and color-shift films can appear different under different lighting and viewing angles. Exact color appearance can vary by screen, lighting, film batch, and surrounding vehicle color.

7. CUSTOMER QUOTE WORKSHEET

Use this page during vehicle inspection to build a clear, itemized quote.

Customer Name:	_____
Vehicle:	_____
Year / Make / Model:	_____
Current Color:	_____
Requested New Color / Finish:	_____
Film Brand / Product:	_____
Partial / Full Wrap:	_____
Panels Included:	_____
Door Jambs:	YES / NO
Trim Removal:	YES / NO — Additional quote if required
Existing Wrap Removal:	YES / NO — \$50/hr starting
Special Prep Required:	YES / NO — Quote separately
Custom Graphics / Design:	YES / NO
Estimated Completion:	_____

PRICE SUMMARY

Item	Amount
Wrap / Package	\$ _____
Film Upgrade / Specialty Material	\$ _____
Removal / Prep	\$ _____
Custom Graphics / Design	\$ _____
Additional Labor	\$ _____
TOTAL QUOTED PRICE	\$ _____

CUSTOMER APPROVAL

I have reviewed the selected services, film, pricing, vehicle-condition disclosures, and wrap-removal risks. I authorize Splash & Dash to perform the work described in this quote.

Splash & Dash Representative: _____ Date: _____

PRICING BASIS

Labor target: **\$20/hour**. Baseline material assumption: approximately **\$800 per 60-inch × 75-foot roll**. Material usage, waste, installation time, overhead, and project complexity are incorporated into the pricing structure. Specialty films and unusually complex vehicles are quoted individually.
